## CONFETTI

**Très jolie**  
 We're in love with this exquisite inaugural collection from Paris-based designer, Diane de Malherbe. After designing for prestigious Haute Couture houses in New York, Paris and London, it was only a matter of time before her luxurious creations charmed the fashion world. Designs feature the finest fabrics, all responsibly sourced, while ingenious systems for adjustable clothing offer timeless pieces as an alternative to fast fashion. Inspired by the mystical ornaments and gardens of the Fontainebleau and Courances castles, as well as the French poet and artist Jean Cocteau, every piece in this stunning collection is hand embroidered and made to order in the designer's atelier.
